

Helpdesk Update by Cedrick James Orozo

Improve Log-in page. Add System Kaizen / Information System option before log in.

A form titled "Job Order Details" with a "Print" button. It contains fields for "Requestor: Tolentino, Edwin", "Email: e.tolentino@glorylocal.com.ph", "JO Number: 2404-733", "Date filed: April 22, 2024", "Requested Section: MIS", and "Type: Others". There is a "Telephone" field with the value "833" and a "View Attachment" button. Below these fields, there is a "Request Details" section with a text area containing the text: "Request recovery of (new) nor no. (excel file) . location: \\192.168.1.250\production - edminanproduction 2 technician7. Prod2_trouble analysis report, due to cannot open. Last date open about april 5,2024". There is also an "Action" section with a text area for "State your action..." and a "Recommendation" section.

Fix uploading error of attachment by changing the properties of the folder from the server side.

Created a Calendar UI that adds dates of holidays in our database. Those dates are important in computing the number of days late.
